At Waltham, Watches are manufactured on a large scale, under one roof and system of supervision and management, thereby saving many of the expenses necessarily incurred in small establishments; honce their great cheapness.

All respectable dealers now sell Waltham Watches, and competition, as all the world knows, is favorable to small profits. The trade is satisfied, because, though the profit on each watch is small, the demand is large and all are salable.

Unscrupulous importers occasionally place a worthless Swiss imitation in the market. To svoid imposition, the purchaser should invariably demand a certificate of genuineness, signed by the treasurer of the American Watch Company—H. E. ROBBINN.

There are different grades of finish in the different varieties of Watches made by the waltham Company, as there are different sizes and shapes to suit all tastes and means, but every Watch that, bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be a fraid to buy it.
